JIM'S STORY

Every once in a while, a product comes on the market that is intended for one purpose but becomes known as a solution for many industrial problems. Some of these that come to mind are Duct Tape, WD-40®, and Super Glue®. These products are everywhere, and people have been conditioned to consider them automatically when a problem is identified.

People are just getting to know SpillFix, but it's already setting itself apart from traditional clay-based, kitty litter type spill cleanup products. Let's look at how one SpillFix customer is finding so many uses for this revolutionary product at his roofing shingles plant... and at his home.

When we sat down to talk with Jim, we were amazed at the uses he's discovered for our product, SpillFix. He let us know he finds new applications all the time, and he's pleased we've brought this product to the market.

Ventilation Systems

In Jim's plant, the ventilation system develops a sludge build up from the asphalt fumes that are created during the production process. In the past, the only way they could deal with this mess was to scoop it out. This was a nasty job, and never really worked very well. Every two weeks, someone would have to climb up there and scoop the sludge into a five-gallon bucket. They bought a dam to use in this area and lined it with SpillFix.

Wow! This made a big difference in keeping this area clean. Now, they wait until the SpillFix turns black, and easily replace it at that point. This ventilation system is 40 feet overhead. Carrying a bag of lightweight SpillFix is a dream, compared to lugging heavy bags of traditional spill cleanup material. Lining the more extended sections of the ventilation system with boom socks of SpillFix creates the perfect cleaning solution for these problematic areas.

Eliminating Pond Scum

For the pond on the premises, they use SpillFix in 20-foot sections of boom socks to partition off an area. Once they throw SpillFix on top, and take it up again, the pond scum is gone. The sheen disappears, and the water is clear.

JIM'S STORY (cont.)

What About General Spills?

Our product was designed to help with general spills and it's the go-to when it comes to addressing the mishaps around Jim's plant.

When they had some floor coating delivered, it made a huge mess, which was quickly resolved with the help of SpillFix. What amazed the onlookers was the SpillFix was saved for the next event, instead of having to be disposed of after mitigating one spill. When they had a paint spill a few days later, it was contained and cleaned up the first time, with no noticeable traces of a spill.

Jim noticed an oily buildup underneath the conveyor belts in the plant. When he thought about it, he couldn't remember ever seeing it clean under there. Jim decided to give SpillFix a try. The very first time he tried it, the oil was removed so thoroughly, they were able to paint that area. They had never been able to do that before.

It's Not Just for the Shop... Take Some Home with You!

Jim came to realize if he was using SpillFix for so many things around the shop, he could probably use some at home. He had the confidence to pour a little cooking oil on the granite countertop, while his wife was watching. SpillFix saved Jim's neck when it picked up the oil without a trace!

Now, Jim and his wife use it for oil spills in the garage, and for cleanup after painting projects. Paint Disposal? Stir in some SpillFix, and you're done.

When You Have a Mess, Try SpillFix

Jim is not unique. Every day, people are finding new uses for SpillFix! Whatever messes you make, try SpillFix first. Discover the many uses for this lightweight, economical, environmentally safe, and simple to use solution. We would love to hear how you and your customers use it.

What's Your SpillFix Story?

PRODUCT INFORMATION

ABSORBENT

SKU: SPL-50L
 Volume: 2.0 ft³ / 13 Gal / 50 L
 Weight: 20 lbs (US) / 9 Kg
 Per Pallet: 48
 Oil Absorption: 7 Gal (approx.)

ABSORBENT

SKU: SPL-15L
 Volume: 0.6 ft³ / 4 Gal / 15 L
 Weight: 7 lbs (US) / 3.175 Kg
 Per Pallet: 124
 Oil Absorption: 2.1 Gal (approx.)

ABSORBENT

SKU: RDSPL3L
 Volume: 3 Quarts / 3 Liters
 Weight: 1.1 lbs (US) / 0.5 Kg
 Per Pallet: 288 (48 Cartons)
 Oil Absorption: 2 Quarts (approx.)

SPILLFIX PRODUCT RANGE

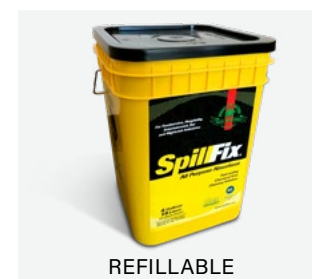

BOOM SOC

SKU: SPLB-3.0M
 Length: 10 feet / 3 Meters
 Diameter: 4 inch / 10 cm
 Per Pallet: 96 (48 Cartons)
 Oil Absorption: 3 Gallons (approx.)

BOOM SOC

SKU: SPLB-1.5M
 Length: 5 feet / 1.5 Meters
 Diameter: 4 inch / 10 cm
 Per Pallet: 192 (48 Cartons)
 Oil Absorption: 1.5 Gallons (approx.)

REFILLABLE

SKU: SPLCW-4GB
 Volume: 4 Gallons / 15 Liters
 Weight: 7 lbs (US) / 3.175 Kg
 Per Pallet: 64 / 48 with Brooms
 Oil Absorption: 2.1 Gallons (approx.)

SPILL KIT (7lb BAG)

SKU: SPLK-175B
 Size: 18" x 18" x 7.5"
 Weight: 12 lb / 5.5 Kg
 Per Pallet: 32 (8 Cartons)
 Oil Absorption: 4 Gallons (total approx.)

SPILL KIT (2x 3qt JARS)

SKU: SPLK-2J5B
 Size: 18" x 18" x 7.5"
 Weight: 11 lb / 5 Kg
 Per Pallet: 32 (8 Cartons)
 Oil Absorption: 3 Gallons (total approx.)

SUPER SACK

SKU: SPL-42BSS
 Volume: 555 Gal / 2,100 Liters
 Weight: 875 lbs / 383.25 Kg
 Per Pallet: 1
 Oil Absorption: 294 Gallons (approx.)

Weights will vary due to humidity.
